Illustration: an AI agent with no gate (not one of the tested systems)

16:40

The projector may be about 25 minutes late.

believes the text → books the $35 backup → reshuffles the whole program

⚠ a claim taken as fact

⚠ money spent without a person

⚠ a change nobody checked

Plan B

checks the one fact that matters (ETA 17:25) → the model picks one option the server checked → the gate writes a receipt (swap two activities, $0)
